

10 Projects

June 2012 Newsletter

The Ten Projects Team is pleased to present its fourth volume of our on-going newsletter. As always, the team would like to thank those who have shown us continual support!

Project #3: Nepal

Team members, Adam and Lisa, are currently living in Nepal as they work to complete Project #3! The duo is working closely with the HYGA (Himalayan Youth Golf Association) to help enrich children's lives in various ways throughout Nepal. Adam and Lisa spend time volunteering and helping children in Pokhara, Nepal at two orphanages, The Destitute Children's Home and Nepalese Children's Home. Due to the upcoming monsoon season and petrol shortage in Nepal, goods have increased in price, making it even more difficult for children and their families.

After discussing what was most needed at the Destitute Children's Home with the director, Mina, the team decided that the purchase of necessity goods would be a great help for the children. Adam and Lisa traveled to a local market with Mina and they were able to buy a month's worth of supplies for the children at the orphanage. Some of the items purchased included rice, noodles, masala, cooking oils, onions, garlic, soap, shampoo, laundry detergent, a propane tank for cooking, and more!

This is only the beginning of Project #3! The team is currently spending time volunteering at both children's homes, and they are working to create a rooftop vegetable garden at

Destitute Children's Home. By growing a garden on the roof, the orphanage will be able to be more self-sufficient and have a healthier diet.

In the photos below you can see what we have our work cut out for us!
